About Conference, Scope & Sub Themes

Conference shall be purely online, aimed to bring the academicians, scholars, industrialists and researchers from different backgrounds at one platform to share various aspects of biological sciences, sustainable development, biodiversity conservation. An effort shall also be made to make the people aware of environment

sustainability and biodiversity conservation. Participation from diverse groups of people and discussions opens new channels and gates, which may be useful in conquering challenges which mankind is facing today. Therefore, the emphasis shall be laid on paying attention towards nature and to bring into light all possible measures to conserve biodiversity so that we can contribute in maintaining the life on Earth for longer period.

1. The conference major themes are Role of biological, physical and chemical sciences in sustainable development.
2. Advanced techniques in biological sciences.
3. Animal Physiology & Molecular Biology
4. Biodiversity conservation & Sustainable Agriculture.
5. Agricultural and Applied Entomology.
6. Climate change and Global warming.
7. Environmental Pollution and Management.
8. Bioinformatics and Quantitative Ecology.
9. Biotechnology & Nanoscience in Environmental Management.
10. Economic growth vis-a-vis sustainable development.
11. Role of IT & Media in Environmental Conservation.
