About The Conference

The "Innovative Trends in Science and Engineering" conference stands as a national platform where leading experts, researchers, and innovators converge to explore the latest advancements in these pivotal fields. This conference serves as a catalyst for

interdisciplinary collaboration, fostering dialogue and exchange of ideas among professionals from diverse backgrounds. Participants engage in thought-provoking discussions and presentations shedding light on emerging trends, cutting-edge technologies, and groundbreaking research that shape the landscape of science, and engineering.

The objectives of this conference are:

- ❖ To provide a platform for sharing insights and advancements in science and engineering.
- ❖ To facilitate interaction among industries, organizations, researchers and academia
- ❖ To explore thrust areas of research in this contemporary topic
- ❖ To provide a networking opportunity to participants, scholars, students, faculty and experts
- ❖ To provide a platform to participants, scholars & faculty to showcase their research.

The outcomes of this conference are:

- ❖ Disseminating latest research findings within the field.
- ❖ Serving as a significant milestone in bolstering the country's economy.
- ❖ Stimulating the generation of novel ideas to devise cost-effective techniques across various domains for the betterment of society.
